**PLEASE NOTE**

- The estimate of hospital charges includes the Hospital room, ancillary charges such as X-ray, laboratory tests, medication and consumables. It excludes histology charges.
- The above cost estimates does not include any doctors' professional fees.
- The Hospital does not warrant that the actual charges payable on discharge would be that of any of the bill sizes stated above. Actual charges are highly dependent on the patient's final diagnosis, treatment and or procedure received and the actual length of stay. A change in a treatment plan may alter the above estimate bill sizes.**
- CPF Board regulates Medisave withdrawal limits. The Medisave claimable limits are as follow:
  - A Medical and Surgical inpatient case is \$450 per day which include a maximum of \$50 for doctor's daily attendance fees
  - Approved day surgeries procedures are claimable up to \$300 per day for daily hospital charges for surgeries. This include a maximum of \$30 for doctor's daily attendance frees
  - Surgical operations (inpatient and day surgery) a fixed limit is claimable depending on the complexity of the operations. It ranged from \$250 to \$7,550

The above is subject to the availability of funds in the Medisave account.
- Medisave can be claimed only if the patient stays in the hospital for at least 8 hours (unless the patient is admitted for day surgery).
- Hospital discharge time is 11.00am. Additional half day's room rate will be charged for discharges after 11.00am and a full day's rate will be levied for discharges after 6.00pm.
- The figure provides an estimate of the upper range of bill sizes which 80% of patients pay this amount or less and 20% pay more.**
- The estimations are inclusive of GST.

THE ABOVE HAS BEEN SHOWN AND EXPLAINED  
TO ME AND I AM AGREEABLE TO THE SAME

WITNESSED BY HOSPITAL STAFF

**Notes :**

1. Data in respect of public and private hospitals are based on Medisave claims submitted by the hospitals. The date includes doctor's charges.
2. The comparison only serves as a guide and has not been standardised for the different range of medical specialities in each hospital.
3. Medical Specialities include Cardiology, General Medicine, Geriatric Medicine, Paediatrics Medicine, Neonatology, Neurology, Rehabilitation Medicine, etc.
4. Surgical Specialities include Cardiothoracic Surgery, ENT, General Surgery, Neurosurgery, Gynaecology, Obstetrics, Orthopaedic Surgery, Paediatrics Surgery, Plastic Surgery, etc.
5. Average per day = total amount of inpatient bills / total number of days stayed in hospital (day surgery bills are not included).
